Dantec™ DCN Disposable Concentric Needle Electrodes

Dantec DCN New Improved Design

Disposable Concentric Needle Electrodes for EMG

Premium performance with enhanced comfort

- Silicone coating and ultra-sharp, 3-bevel tip design increase patient comfort by reducing friction and insertion force
- Stainless steel cannula provides strength for efficient penetration and flexibility for precise adjustments
- Each needle has an ergonomically designed, color-coded hub with a recording area direction indicator
- Precisely centered, insulated tungsten core provides accurate signal detection
- Rigorous quality control assures consistent sharpness and high concentricity for clinical reliability
- Low impedance levels for accurate recordings
- Pre-sterilized

Tungsten core assures reliable and accurate signal detection

Recording area 0.02 or 0.07 mm² depending on needle size

Color coded hub with security clip/recording area direction indicator

Orientation-free connection
